

TADEPALLI PRANAVI

Software Engineer | Java Full Stack | Spring Boot | Microservices

Hyderabad, India | 7893581868 | tadevallipranavi101@gmail.com

PROFESSIONAL SUMMARY

Software Engineer with 3+ years of experience at Cognizant, with hands-on experience in Java Full Stack development, Spring Boot, Microservices and React. Currently working on the DIRECTV IT Services project in C3 application. Experienced in enterprise application environments, application support, troubleshooting and collaborating with cross-functional teams. Seeking a technology-focused opportunity where strong Java, backend and full-stack skills can be applied to enterprise and client-facing solutions.

PROFESSIONAL EXPERIENCE

Cognizant — Software Engineer | Hyderabad, India | 3 years 6 months

- Worked on enterprise solutions supporting product selection, ordering workflows, dealer management, pricing validations, and customer onboarding processes.
- Collaborated with business stakeholders to analyse requirements and implement configurable business rules, validations, and workflow enhancements.
- Designed and maintained rule-based application logic to support product eligibility checks, order processing, and customer-specific business scenarios.
- Investigated production issues, performed root cause analysis, and delivered defect resolutions to improve application stability and user experience.
- Participated in requirement analysis, solution design, development, testing, deployment, and production support activities.
- Worked closely with onsite and offshore teams during Agile sprint cycles, daily stand-ups, planning sessions, and release activities.
- Performed impact analysis for enhancement requests and coordinated testing activities to ensure successful production deployments.
- Maintained technical documentation, issue-tracking records, knowledge transfer materials, and release support artefacts.

Cognizant — Software Engineer Intern | Hyderabad, India | 7 months

- Gained practical experience in Java, HTML, CSS, JavaScript, Spring Boot, React and MySQL.
- Developed a Restaurant Management System using Spring Boot/REST, React, JavaScript, HTML, CSS, Bootstrap and MySQL.
- Built foundational experience in full-stack application development and database integration.

TECHNICAL SKILLS

Languages: Java, Python, JavaScript, HTML, CSS

Backend: Spring Boot, REST APIs, Microservices

Frontend: HTML, CSS

Database: MySQL

Other: Generative AI fundamentals

PROJECTS

DIRECTV:

Technologies: Java, Spring boot, Restfull Services

- Developed and maintained a telecom product catalog platform responsible for managing customer-specific offers, plans, add-ons, and package configurations. Implemented business rules to recommend eligible products for New, Existing, and Winback customers while enforcing compatibility and incompatibility validations between offers, add-ons, and base packages. Built RESTful services using Java and Spring Boot to support catalog management, product validation, and offer recommendation workflows in a high-volume telecom environment.

Detection of Fraudulent Clicks Using Machine Learning

Technologies: Python, MySQL, JavaScript, CSS

Developed an academic project focused on identifying and preventing fraudulent clicks in pay-per-click/cost-per-click advertising, with the objective of detecting abnormal click activity and reducing the impact of click fraud.

Restaurant Management System

Technologies: Java, Spring Boot, REST, React, JavaScript, MySQL, Microservices, HTML, CSS

Built a system to support restaurant operations such as order management, table booking and ratings using a full-stack application approach.

EDUCATION

RVR & JC College of Engineering, Guntur, Andhra Pradesh — B. Tech, Computer Science & Engineering | 2022 | 78%

AANM & VVRSR Polytechnic College, Gudlavalleru, Andhra Pradesh — Diploma, CME | 2019 | 88%

Narayana Techno School, Avanigadda, Krishna — SSC | 2016 | CGPA: 7.7

CERTIFICATIONS

- Generative AI Fundamentals — Knowledge Based Assessment [101-Basics]
- Dynatrace — Knowledge Based Assessment [101-Basics]
- Introduction to Programming Using Python — APSSDC
- Introduction to Programming Using Android Studio — APSSDC
- Java Programming — NPTEL

ACHIEVEMENTS

- Completed a hackathon project conducted by Cognizant.
- Got Certified on Java from NPTEL
- Participated in the NASA Talent Test.
